The dispatch was simply a negative, and did not go into reasons for failure to approve the plans.

## TANTALUS LOTS WILL BE SOLD

EIGHT SITES FOR BUNGALOWS  
TO BE TRANSFERRED TO THE  
PUBLIC LANDS DEPARTMENT.

There will soon be available some fine residence lots on Tantalus, Superintendent of Public Works Holloway is preparing to transfer about eight government lots in that section to Land Commissioner Pratt. This transfer is to be made so that applications for the lots can be received. None of the lots are of any extensive size, being in size an average of about a quarter of an acre. They will make fine sites for bungalows.

After Commissioner Pratt will have arranged the details necessary to his part of the transaction, the lots will, no doubt, be offered for sale with an upset price that, in the opinion of Commissioner Pratt, will be right and proper. None of the lots are a part of the tract secured from the Coney Estates in the recent Lanai transfer.

## HIS TEARS AND HIS FAINTING

THE SAN FRANCISCO CHRONICLE DESCRIBES HIS ACTION IN COURT AS IN A SMALL MEASURE DRAMATIC, SOMEWHAT PITIABLE AND ALTOGETHER CONTEMPTIBLE—CRACKS JOKES AFTER COURT SCENE IS OVER—WILL IMPLICATE THE "HIGHER UPS."

SAN FRANCISCO, May 16.—Abraham Ruef, indicted on five charges of extortion, sixty-five charges of bribery and one charge of conspiracy pleaded guilty yesterday before Superior Judge Dumme to one of the charges of extortion on which he was being tried before that court and for which purpose a jury had just been impaneled.

The reversal of plea by the former political boss came as a surprise to both the prosecution and the defense, notwithstanding that it was well known that Detective Burns, both personally and through agents, had been at work to that end for the past two months. It was not thought that the agreement to turn state's evidence on the one side and to grant immunity from punishment on the other would materialize at this time, it being the general belief of those informed in relation to the pending trial that no conviction would be secured.

The attitude of Ruef throughout the proceeding was in a small measure dramatic, somewhat pitiable and altogether contemptible, as its basis was fear and cowardice. He first rehearsed his part in private conference with his attorney.

## DERELICT BOTTOM UP SIGHTED BY S. S. CHINA

MAY BE BESSIE K.—PASSENGERS  
THOUGHT IT WHALE OR SUBMARINE—DANGER TO SHIPS.

But a few hours out of San Francisco, southwest of the Farallones, Captain Robinson of the P. M. S. S. China, which arrived here early this morning, sighted a queer rig. Others of the ship's company took a look and soon every passenger who had not begun to be seasick went to the rail to rubber at the strange craft.

While the commander was scrutinizing the pick-up through the glass the passengers speculated as to her nature. It was the impression of several that she was a submarine, for there were no top-works visible. A few declared that it was more likely a whale asleep near the surface.

As the China neared the floating structure it was discovered to be a derelict, bottom up. The hull was of wood and, bobbing out of the swell every now and then was a three-bladed propeller, probably once used with steam or gasoline auxiliary. There was no sign of a name or other means of identification. It was thought that she might be the hulk of the Bessie K, which has been reported up and down the coast for several months. Unless dynamited she is likely to prove disastrous in a collision.

## HONOLULU SHRINERS BRING HOME TROPHIES

PART OF MEMBERS OF ALOHA  
PATROL ARRIVE ON CHINA—  
REPORTS MANY TRIUMPHS.

The Honolulu Shriners to the number of about a dozen, who arrived home this morning on the China from attending the meeting of the Imperial Council in Los Angeles on the week of May 5th, brought with them glad tidings to the members of Aloha Temple who were unable to get away, in their description of the magnificent impression made by the Aloha Patrol. From the first their course was like a triumphal march, and they carried everything before them.

The boys are somewhat modest in telling about the laurels they won, but the bunch of press comments relative to them and their work, and their music, and dress, tell the story of one long ovation. Again and again the Los Angeles papers refer to the Aloha Patrol as being without question the most popular aggregation of the 102 different temples represented. Every time they appeared in public, the papers refer to them as carrying the populace by
